

2018 CALENDAR

2017

Upstream, Midstream, Downstream

Tiger Rentals is a leading international provider of offshore oilfield equipment rental services (Tiger Offshore Rentals), onshore equipment rental services to the E&P, midstream, and petrochemical sectors (Tiger Industrial Rentals), and energy-related safety equipment rental and services (Tiger Safety Rentals). Tiger will rent, sale, lease, RPO, repair, support and train on our equipment as needed. Our “make it happen” team of professionals will help you get everything you want and need - all from a single source. With Tiger, you get 24/7 connectivity and a team that will do whatever it takes to get equipment to you anywhere around the world.

Cleaning Equipment

Tiger Industrial Rentals has a large fleet of cleaning units fit for every application in the upstream, midstream and downstream sectors of the oil and gas market. From 3,500 to 40,000 psi, we offer air operated screen cleaners, hot water / steam cleaners, diesel and explosion-proof electric cleaners, steam generators for de-icing and de-gasing, coke cutting pumps & services, pressure washers, and hydroblasters. Our goal is to provide cleaning units that are dependable and get the job done right the first time.

H₂S Services

Tiger provides H₂S services and crews with wireless gas detection and alarm systems that are ideal for your flowback job. Tiger technicians will train, fit test, and drill all personnel on your work-site and construct your H₂S contingency plan to satisfy all regulatory agencies for permits and compliance. Our highly trained technicians will set up gas detection (wireless or wired) systems, alarms, and respiratory systems for any drilling scenario. All equipment will be monitored, calibrated, and tested as well as documented for the duration of the project.

2018

Fluid Transport Tanks & Logistics Equipment

Tiger's equipment is built for severe conditions. Not only is our fleet of containers new, it's also built to last. Our units are constructed of the toughest materials. Plus there are ample options for specialized uses, such as additional tie downs, saddle support for containing round objects, side door access for easy loading on some DNV 2.7-1 baskets, and rubber seals on open baskets to make them fluid containment capable. Our units meet industry standards for labeling details such as load capability, and the top rails are painted safety orange for high visibility in the harsh, high-activity environments common to offshore.

Cuttings Boxes & Waste Skips

Tiger cuttings boxes are designed to readily adapt to a wide variety of closed-loop systems, with user-friendly features that allow easy handling by multiple subcontractors throughout the delivery-removal cycle. This gives you immense flexibility across your operations while strictly maintaining compliance. Tiger has a large inventory of cuttings boxes and waste skips in a variety of sizes. Every unit is built for outstanding offshore performance with features such as a rust-resistant galvanized finish, and multiple ports that allow for faster cuttings collection. Our cuttings boxes also have lighter lids, nearly half the weight of many competitors' boxes, making a substantial difference in preventing injuries.

ECOmats™

The much safer, much tougher ECOMat™. Designed to provide temporary stability and improvement of ground conditions for oil and gas, industrial and commercial construction projects. Built with a segmented [non-hollow core], the synthetic ECOMat™ addresses structural needs and dramatically improves project foundations. **Key Safety Benefits:** No cable loops or chain loops. Recessed D-Rings reduce tripping hazards. Galvanized D-Rings enhance lifting performance. Load rated to 4,000 lbs in a pair and meets ASME B30 Lifting Standards. Boards are tightly spaced, reducing ankle rollovers. All bolted, no nails to puncture shoes or tires. Static Inhibitors. Modular to reduce replacement cost. Class II Fire Spread Rating.

Blast Resistant Buildings

Tiger Industrial Rentals furnishes a variety of buildings for use in the oil and gas industry as well as commercial, industrial and emergency response applications. Tiger's buildings come in various styles and can be used as shelters, housing, offices space, training rooms, restroom facilities, medical clinics and more. Our blast resistant buildings can withstand the effects of explosions, extreme heat, fire, excessive noise and projectiles from accidents that occur in the field or combative situations. Combined with accessories and rental equipment, Tiger can customize a building package to accommodate your requirements for ultimate protection.

Field Services

In today's oil and gas industry, hydraulic fracturing plays a major role in hydrocarbon production. While flowing back a well after fracturing, many undesirable solids including sands are produced which can damage integral equipment. This can cause unnecessary loss of time and money. Tiger Safety provides 3 different pressure rated sand separators to protect your downstream equipment. Tiger has a large stock of units available in all major shale plays in the United States including North and South Texas, North & South Louisiana, Pennsylvania, Colorado, Ohio and more.

Consolidated Services

Whether you're working on a pipeline, drilling and completions or a construction site, Tiger has the consolidated equipment and services you need to accomplish your goals. Coupled with the Tiger ECOmat, we offer heavy iron equipment to help you navigate through muddy or rough terrain with ease. Our ECOmats provide for a strong, safe and stable foundation to drive heavy equipment on and prevent injuries to work crews while on the job. Our light towers and gensets will provide ample power to work around the clock and our blast resistant buildings provide housing and/or office space on-site. Whatever you need, we will make it happen.
