Note: Replacement filters charged upon return regardless of use	

Among the most powerful units available, at 2,000 CFM this unit is changing the air in a typical 12' x 12' room well over 100 times an hour. The true HEPA filter removes airborne particles down to 0.3 micron in size with 99.97% efficiency. The airtight case made of corrosion-resistant heavy gage aluminum seals with Iron Grip neoprene material, and the door quickly opens and closes with a link lock latch. A unique custom designed 1.75 HP motor and dynamically balanced blower mounts in a tripod fashion using rubberized bushings designed to dampen vibration and minimize noise. Carefully engineered tolerances avoid motor shift, rubbing, or drag.
