

The only good accident is one that never happens.

The all new, much safer ECOMat™ That's the mark of Tiger.

Chemical plants and refineries are becoming more sure-footed, with Tiger ECOMats. They're loaded with safety features, including a high-traction surface, class 2 flame rating, static inhibitors and an OSHA approved lifting design. Plus they help protect the environment because they won't absorb chemicals or biodegrade over time. Heavy-duty 8' x 16' synthetic ECOMats are compact and easy to install, yet they are much stronger and last longer than wood mats. In short, they eliminate the many problems of wood and composite options. Put a safer, cleaner, smarter foundation under your operation. Insist on ECOMats.

Safer

High-traction surface
Certified lifting design
Fire retardant
Static inhibited

Better for Environment

No fluids absorbed
Easily cleaned
Less solids buildup

Longer Lasting

Synthetic material
UV rated
3-ply laminated
Bolted, not nailed

Make it happen.
