

# Bring it on. (Literally.)

The much safer, much tougher ECOmat™. That's the mark of Tiger.

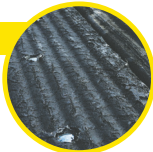

## Safer

- No broken boards
- No cable loops or chains
- Safer lifting design
- Static inhibited

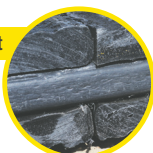

## More Durable

- Synthetic material
- UV rated
- 3-ply laminated
- Bolted, not nailed

## Better for Environment

- No fluids absorbed
- Easily cleaned
- Non biodegradable

No matter what you drive, drop, roll, track, spill or stack onto your drilling or frac site, Tiger synthetic ECOmats can take it. And more. They're built to be the strongest and safest mats out there, with

**ECOmats** features like a high-traction surface that keep boots, tracks and tires from slipping.

They also won't absorb chemicals, harbor solid contaminants or otherwise harm the environment. Lightweight 8' x 16' ECOmats are easy to work with and install, and they're more durable than standard options, by far. Eliminate the problems of wood and composite mats. Bring on ECOmats, and then bring on anything.

*Make it happen.*
